RESPONSE TO OFFICE ACTION OF FEBRUARY 26, 2003

Honorable Director of Patents
and Trademarks
Washington, D.C. 20231

Dear Sir:

In response to the examiner's further office action of February 26, 2003 following the Request for Continued Examination, it is requested that the application be further amended as follows:

In the Claims

Amend claims 21 and 24 as follows:

21. (Five times amended) An electric motor comprising a stator having a bore in which a rotor is located, and having a motor control arrangement connected to the motor, the control arrangement having at least one coil with a core, the coil being located in an intermediate circuit
